

Welcome back to

F_OY'S ARCADE[®]

Foy's Arcade – Inspire your audience

Foy's Arcade is an Experience Centre in Melbourne purpose-built by ISPT to serve our investors, customers and partners. For those who have not visited Foy's Arcade we now offer guided virtual tours along with hybrid and virtual event services!

Welcome to Foy's Arcade where you and your team can meet in a safe, secure, clean environment while accessing technology support and design curation assistance for displaying your content from experts working remotely.

Our remote assistance provides real time support... think of us like the Wizard behind the curtain in Oz! All you need to focus on is planning your agenda and we can efficiently assist hosting your meetings either in-person or virtual workshops, tours and assistance hosting Microsoft Teams or Zoom livestream events.

Foy's Arcade remote assistance currently supports Microsoft Office including Microsoft Teams, Google G-Suite of Tools, Zoom and other popular platforms.

We are required to follow Victorian Government guidelines which currently requires entry to fully vaccinated attendees, however we offer fabulous virtual and hybrid event services on hand for anyone who needs to attend virtually.

Please sign-in with the Victorian Government QR code upon entry.

Please practice safe distancing of at least 1.5 metres if required.

Please wash your hands when you enter and exit the space.

Please wear a facemask in the space if required.

1

On-Site Event

All attendees physically present in the space. We are constantly monitoring updates from the Victorian Government. Due to possible restrictions for your event, our staff are also able to support your event remotely so we do not make up your event numbers.

a: On-site event support

b: Remote event support

2

Hybrid Event

If some attendees are physically present at Foy's Arcade and some are attending via video conference, we have two mobile video conference screens which can move around the space so you can enable your virtual attendees to join in your workshop or event.

a: On-site event support

b: Remote event support

3

Virtual Event

If a physical event is out of the question the Foy's team are able to support a virtual event over Microsoft Teams or Zoom. We are able to assist with content creation and marketing materials for use before and during the event.

a: Remote support for technology logistics and hosting

b: Basic marketing materials to promote your event

c: One presentation for use during the event
